

Dear Neighbors of 611 W. 112th Street,

We are writing to provide an update of upcoming activities at 611 W. 112th St.

What is Happening

Removal of an abandoned 4,000-lb. oil tank. This work follows the removal of the old boiler, which was completed in late January.

Shoring Protection

Beginning Monday, February 13, preparations will commence on site to facilitate the removal of the oil tank. Scaffolding and overhead protection will be installed in the building to allow the contractor to safely access the tank. This work is anticipated to take two days.

Tank Removal

After the shoring is complete, the contractor will perform the removal of the tank, pending the approval of required permits. The tank and any debris will then be loaded onto a truck for disposal.

Work hours will be 8 a.m. to 3 p.m., Monday through Friday. While most of the work will be taking place inside the building, please be aware of some impacts including noise. This work is expected to be complete by Friday, February 24.

Please feel free to contact me with any questions or concerns you may have. Thank you for your patience and understanding while this work is performed.
