

611 West 112th Street Interior and Exterior Renovation

Columbia University is performing an interior gut renovation and exterior restoration of 611 W. 112th Street for future university housing. The project scope includes a building-wide replacement of floor and roof structure; historical restoration of the exterior masonry and recreation of the cornices; replacement of windows; new interior finishes; new mechanical, electrical, and plumbing; fire alarm, fire protection and security systems, and the creation of a new, accessible entrance.

UPDATE – Crane Pick at 611 W. 112th Street to be Rescheduled

What is Happening

The installation of roof equipment at 611 W. 112th Street that was scheduled for Saturday, August 17 has been postponed. This work was rescheduled pending the Department of Transportation's repavement of West 112th Street following the recent milling of the street. The street must be repaved prior to the crane pick taking place. The crane pick at 611 W. 112th Street will be rescheduled once the repaving is complete.

NOTE: Activities are subject to change based on weather and other field conditions.
