Studebaker Sixth Floor Laboratory Renovations

Columbia University is performing renovations on the sixth floor of the Studebaker Building to create a state-of-the-art research space for the Chan Zuckerberg Biohub New York. The CZ Biohub New York is a collaborative effort among scientists from Columbia University, The Rockefeller University, and Yale University to bioengineer immune cells for the early detection and treatment of diseases. In addition to the renovation work on the sixth floor, the third and fourth floors will be refreshed.

Construction Activities for the Weeks of February 10, 2025 and February 17, 2025

Although contractors carefully stage construction activities to minimize disruption, the nature of construction work is such that some disruptions will occur. The community should expect the following in the coming weeks:

What is Happening

- Demolition on the 6th floor is 95 percent completed. Removal of flooring to start after hours the week of February 10. Removals of duct and piping will occur during the day starting the week of February 10
- Installation of finishes (paint, sheetrock, tile, and flooring) is complete on the 3rd and 4th floors.
- Work on 4th floor is ongoing; installation of carpeting and cubicle finishes to continue the week of February 10.
- Work on the 3rd floor is 95 percent complete. Move in of equipment and personal effects has started and will take place over the next three weeks.
- On-site field meetings and coordination with trades and subcontractors on the 3rd, 4th, and 6th floors.

What to Expect

- Regular work hours are 7:00 a.m. to 5:00 p.m., Monday through Friday. Demolition work on the 6th floor will be performed after-hours between 5:00 p.m. to 2:00 a.m.
- Expect noise and other impacts typically associated with construction projects.
- Material deliveries and trash load out through the loading dock and the freight elevator.
- Increased personnel traffic within the building and on the 3rd, 4th, and 6th floors.
