

CZ Biohub New York

Studebaker Sixth Floor Laboratory Renovations

Columbia University is performing renovations on the sixth floor of the Studebaker Building to create a state-of-the-art research space for the Chan Zuckerberg Biohub New York. The CZ Biohub New York is a collaborative effort among scientists from Columbia University, The Rockefeller University, and Yale University to bioengineer immune cells for the early detection and treatment of diseases. In addition to the renovation work on the sixth floor, the third and fourth floors will be refreshed.

Construction Activities for the Weeks of March 10, 2025 and March 17, 2025

Although contractors carefully stage construction activities to minimize disruption, the nature of construction work is such that some disruptions will occur. The community should expect the following in the coming weeks:

What is Happening

- Demolition on the 6th floor is nearing completion. Removal of duct and piping will occur during the day, and removal of flooring will be performed after hours.
- Layout of new partitions has begun.
- Electrical work is ongoing on the 6th floor and roof.
- Work on the 3rd and 4th floors are substantially complete. Occupants are anticipated to move into spaces beginning the week of March 10.
- The contractor is moving throughout the building to scan floor slabs for penetrations for conduit runs in utility areas.

What to Expect

- Regular work hours are 7:00 a.m. to 5:00 p.m., Monday through Friday. Demolition work on the 6th floor will be performed after-hours between 5:00 p.m. to 2:00 a.m.
- Expect noise and other impacts typically associated with construction projects.
- Material deliveries and trash load out through the loading dock and the freight elevator.
- Increased personnel traffic within the building and on the 3rd, 4th, and 6th floors.

For More Information

If you have any questions or concerns about this project, please call the Columbia University Facilities Services Center at (212) 854-2222 24 hours a day, seven days a week, or e-mail projx@columbia.edu (emails responded to during normal business hours). We apologize for the inconvenience and thank you for your patience while we perform this work.
