

Studebaker Building

Façade Repairs and Roof Replacement

Construction Activities for the Next Two Weeks

Columbia University is performing exterior repairs at the Studebaker Building. The first phase of the project is focusing on façade repairs to address deteriorating conditions of terra cotta and ensure safety, including terra cotta replacement, parapet reconstruction, and masonry repairs. After completion of the façade repairs, the building's roof will be replaced. This project is estimated to be complete in August 2024.

Construction Activities for the Weeks of August 8, 2022 and August 16, 2022

Although contractors carefully stage construction activities to minimize disruption, the nature of construction work is such that some disruptions will occur. The community should expect the following in the coming weeks:

What is Happening

- Removal of the spalled concrete wall at the east elevation will continue during the weeks of August 8 and August 16. Demolition will be limited to the southeast corner and the ground level. Heavy chipping noise is expected.
- Terra cotta repairs will continue at the south and southwest corner parapet wall. Intermittent drilling, grinding noises and dust are expected but the noises will be heard mainly on the 6th floor.
- Pipe scaffolding will be installed on W. 132nd Street at the north elevation during the weeks of August 8 and August 16. Pipe scaffolding will cover the entire north elevation. Some window views and light will be obstructed. Intermittent drilling and clanking noises are expected.

What to Expect

- Regular work hours are 7:00 a.m. to 5:00 p.m. Monday through Friday. Noisy demolition on the east elevation will be performed during regular work hours until August 19.
- Expect high levels of noise where and when demolition is taking place. Please note that during quieter workdays there will be some minor intermittent drilling noise. Windows should remain closed to prevent construction dust from entering the building. Draw shades for privacy during the workday.

-Please note that all activities are subject to change based on field conditions –

Need More Information?

You can find more information about the Studebaker exterior repairs on our website at cufo.columbia.edu/studebaker-facade-roof.

Should you have any questions or concerns about this project, please call the Columbia University Facilities Services Center at (212) 854-2222 24 hours a day, seven days a week, or e-mail projx@columbia.edu (emails responded to during normal business hours).
