

Studebaker Building

Façade Repairs and Roof Replacement

Construction Activities for the Next Two Weeks

Columbia University is performing exterior repairs at the Studebaker Building. The first phase of the project is focusing on façade repairs to address deteriorating conditions of terra cotta and ensure safety, including terra cotta replacement, parapet reconstruction, and masonry repairs. After completion of the façade repairs, the building's roof will be replaced. This project is estimated to be complete in August 2024.

Construction Activities for the Weeks of December 26, 2022 and January 2, 2023

Although contractors carefully stage construction activities to minimize disruption, the nature of construction work is such that some disruptions will occur. The community should expect the following in the coming weeks:

What is Happening

- Parapet rebuilding at elevator tower will continue for the remainder of the calendar year. Work is mostly quiet.
- During the holiday break, there will be a limited crew working mainly at the elevator tower bulkhead. The work will be located primarily in the interior of the bulkhead. It will create some intermittent noise. There will be some pointing work at the exterior of the bulkhead, weather permitting.

What to Expect

- Regular work hours are 7:00 a.m. to 5:00 p.m. Monday through Friday. Work that creates noise and vibration is currently limited to Monday, Thursday, and Friday from 7:00 a.m. to 5:00 p.m., and Tuesday and Wednesday from 7:00 a.m. to 9:00 a.m.
- Expect high levels of noise where and when demolition is taking place. Please note that during quieter workdays there will be some occasional noise.
- Windows should remain closed to prevent construction dust from entering the building. Draw shades for privacy during the workday.

-Please note that all activities are subject to change based on field conditions –
