

Tennis Center Replacement Project

Columbia University is replacing its existing tennis facility at the Baker Athletics Complex (clubhouse and air-supported bubble) with a state-of-the-art tennis center that will enhance the experience for student-athletes and club members. The new tennis facility will have six indoor courts and six exterior rooftop courts, and will house locker rooms, offices, and associated fitness and strength rooms.

Construction Activities for the Weeks of March 13, 2023 and March 20, 2023

Although contractors carefully stage construction activities to minimize disruption, the nature of construction work is such that some disruptions will occur. The community should expect the following in the coming weeks:

What is Happening

- Sitework excavation and soil removals
- Installation of exterior façade and masonry work
- Interior finishes, including tiling, painting and millwork
- Installation of HVAC diffusers/grilles, electrical devices, and plumbing fixtures
- Deliveries include miscellaneous materials and equipment to complete the above work

What to Expect

- Regular working hours are 7:00 a.m. to 4:00 p.m., Monday to Friday. After-hours work may take place on weekdays and on weekends with all required permits.
- Due to weather, continuation of sitework and underground waterline work will be performed through the late spring.
- The work for the replacement of the water main will start at the end of March through April. More details on this work will be announced in advance of work beginning.
- There may be intermittent noise from truck deliveries and equipment deliveries and removals.

-Please note that all activities are subject to change based on weather and other field conditions-
