MEMORANDUM

TO: RESIDENTS OF 410 Riverside Drive
FROM: Sunny Kim, Project Manager
DATE: May 2, 2022
RE: FAÇADE REPAIRS-SCHEDULED WORK FOR THE WEEK OF May 2

Please be advised of planned work for the week of May 2nd, 2022.

**Riverside Drive – throughout the entire elevation**
- Window and general cleaning starting from 14th floor
- Pipe scaffolding removal – All 2 lines
- All 1 and 2 lines will hear clanking noise

**West 113th Street – throughout the entire elevation**
- Completing punchlist (terra cotta installation, brick replacement, stone patching and joint pointing…etc)
- Balcony enclosure installation at 6th and 12th floor
- All 2 and 3 lines will hear drilling grinding noise

**Riverside Drive – northwest corner**
- During the final walk through by the architect, new cracked terra cotta units were discovered on the 12th floor and 4th floor. A small section of the pipe scaffolding will remain from ground level to 12th floor at the northwest corner until these unforeseen conditions are addressed.

If you have any questions or concerns about this project, please contact Nelson Falcon, Director for Residential Services, at nf36@columbia.edu. Thank you for your understanding during these challenging circumstances.
