

# CZ Biohub New York

## Studebaker Sixth Floor

### Laboratory Renovations

Columbia University is performing renovations on the sixth floor of the Studebaker Building to create a state-of-the-art research space for the Chan Zuckerberg Biohub New York. The CZ Biohub New York is a collaborative effort among scientists from Columbia University, The Rockefeller University, and Yale University to bioengineer immune cells for the early detection and treatment of diseases. In addition to the renovation work on the sixth floor, the third and fourth floors will be refreshed.

## Construction Activities for the Weeks of July 28, 2025 and August 4, 2025

Although contractors carefully stage construction activities to minimize disruption, the nature of construction work is such that some disruptions will occur. The community should expect the following in the coming weeks:

### What is Happening

- The remaining partition framing continues, with drilling for anchors for office partitions.
- Electrical and plumbing rough-in work is continuing throughout the 5th and 6th floors.
- Electrical wiring has started to be pulled up through the risers to the 6th floor.
- Coring for plumbing piping continues. Any noisy work will be scheduled for early mornings until installation is complete.
- Plumbing work on the 5th floor to resume and will be scheduled over the next few weeks.
- Duct work and other mechanical equipment continues to be delivered and installed. Duct work installation is 80 percent complete.
- Miscellaneous lab piping is being installed and pressure tested for plumbing and mechanical systems.

*-Please note that all activities are subject to change-*

### What to Expect

- Regular work hours are 7:00 a.m. to 5:00 p.m., Monday through Friday, with after-hours work performed as needed.
- Expect noise and other impacts typically associated with construction projects.
- Material deliveries and trash load out through the loading dock and the freight elevator.
- Increased personnel traffic within the building on the 6th floor, and on the lower floors as needed.
- Increased material deliveries for the project to be expected throughout the summer.

### For More Information

You can find more information about the CZ Biohub New York laboratory renovations on our website at [cufo.columbia.edu/czbiohubrenovation](https://cufo.columbia.edu/czbiohubrenovation). If you have any questions or concerns about this project, please call the Columbia University Facilities Services Center at (212) 854-2222 24 hours a day, seven days a week, or e-mail [projx@columbia.edu](mailto:projx@columbia.edu) (emails responded to during normal business hours). We apologize for the inconvenience and thank you for your patience while we perform this work.
